**BACK TO WORK:
 ALBERTA
 CONTRACTORS SHOP
 FOR EQUIPMENT AT
 RITCHIE BROS. FOR
 SPRING AND SUMMER
 PROJECTS**

Every year thousands of contractors across Canada and around the world look to Ritchie Bros.' Edmonton April auction as the perfect opportunity to add to or upgrade their fleets for spring or summer projects. The multi-day event always features a huge selection of equipment from the top companies in Western Canada and every item is sold unreserved. It's a giant supermarket of equipment, and the toys contractors want.

This year's auction is a four-day event (April 25 - 28, 2017) with 7,800+ items already consigned from 950+ owners. Highlights include 210+ excavators, 220+ compactors, 140 skid steers, 130+ dozers, 210+ truck tractors, 800+ trailers, as well as a large selection of oil and gas, agriculture, and forestry equipment. The auction also features real estate (farmland and commercial properties), classic cars, motorhomes, private airplanes, and so much more.

"We try to make our auctions as efficient and valuable as possible for buyers—everyone is welcome,

all the equipment is in one place for inspection, we have no reserve prices and they can bid in person or online," said Brian Glenn, Senior Vice President, Ritchie Bros. "This year we have a great selection of equipment from every major industry along with a wealth of consumer items. At the end of the auction all of it will be sold to new owners."

Auction schedule (subject to change):

DAY ONE: Tuesday, April 25 — 210+ truck tractors, 120 dump trucks, 95 flatbed trucks, 70+ boom trucks, 50+ winch tractors, 30+ vacuum trucks, 30 tank trucks, 25+ water trucks, 20+ utility trucks, and more

DAY TWO: Wednesday, April 26 — 130+ crawler tractors, 65 wheel loaders, 65 articulated dump trucks, 50+ motor graders, 35 motor scrapers, 15+ loader backhoes, trailers, and more

DAY THREE: Thursday, April 27 — 210+ excavators, 220+ compactors, 70 multi-terrain loaders, 70 skid steer loaders, 40 pipelayers, 20 cranes, 35+ telescopic forklifts, 15 rough terrain forklifts, 105 boom lifts, 40+ scissor lifts, drilling equipment, forestry equipment and more.

DAY FOUR: Friday, April 28 — 260+ pickup trucks, automobiles, trailers, and more.

For a complete, up-to-date list of equipment, visit

rbauction.com/Edmonton

What customers are saying: "It's known worldwide that Edmonton is where you come to get the good iron," said Michael Karczmarczyk of ConTrac Equipment Ltd. "It's a premier sale where you have enough size and volume that you get a global audience that's looking for premium equipment."

"Ritchie Bros. makes my life a lot easier," said Robert Tappof of RTE. "They are professional and easy to deal with. All a customer has to do is go to any other auction and you know Ritchie Bros. are the best. They are honest, very knowledgeable, and they don't lead you along. Whether you are buying or selling, Ritchie Bros. goes above and beyond. You couldn't ask for anything better."

Visit rbauction.com/Edmonton for detailed equipment information on all items available in the auction.

About Ritchie Bros.

Established in 1958, Ritchie Bros. (NYSE and TSX: RBA) is the world's largest industrial auctioneer, and one of the world's largest sellers of used equipment for the construction, transportation, agriculture, energy, mining, forestry and other industries. Ritchie Bros.™ asset management and disposition solutions include live unreserved public auctions with on-site and online bidding;

EquipmentOne™, an online auction marketplace; Mascus, a global online equipment listing service; private negotiated sales through Ritchie Bros. Private Treaty; and a range of ancillary services, including financing and leasing through Ritchie Bros. Financial Services. Ritchie Bros. has operations in 19 countries, including 45 auction sites worldwide. Keeping You Safe

renewable energy to his community, and an Albertan entrepreneur who is a semi-finalist in the global Carbon XPrize competition to find technologies to turn CO2 emissions into valuable products.

Presented by the The Natural Step Canada's Energy Futures Lab (EFL), the Innovating Alberta's Energy Future Showcase celebrates some of the most groundbreaking work of the EFL Fellows, a diverse group of leaders from industry, government, First Nations, civil society, and academia. Join Mayor Naheed Nenshi for his opening remarks, followed by an afternoon of thought-provoking presentations, cultural performances, and a compelling panel exchange.

Immediately prior to the event Andrew Ference, a former Stanley Cup champion who has played with the Calgary Flames and served as captain of the Edmonton Oilers, will try his hand at the Newtonian Shift, an engrossing role playing board game that condenses decades of energy transition into hours of exploration. Ference, who started working on environmental issues after surfing in polluted waters off California, is personally committed to sustainable development.

"There are so many amazing projects in the works that are going to help with the challenge of building the energy system of Alberta's future," says Ference. "I'm excited to learn more about this groundbreaking work by the EFL Fellows."

After the presentations, Ference will be part of the panel along with

Melina Laboucan-Massimo from the Lubicon Cree First Nation; Arlene Strom, VP Sustainability & Communications at Suncor Energy Inc.; and Nicholas Parker, co-founder Global Acceleration Partners and a pioneer in cleantech venture capital.

"Energy issues are not as 'black and white' as they seem, and Alberta has a very different story to tell," says Chad Park, Chief Innovation Officer of The Natural Step and Director of the Energy Futures Lab. "With polarized debates about energy as a backdrop, more people are joining us here in the very colourful middle ground and working together to find ways for Alberta to lead in the transition to a low carbon future."

NEB A TOP EMPLOYER AT ALL CAREER STAGES

The National Energy Board (NEB) has been selected as a top Canadian employer in four separate categories for 2017. Whether you are a new graduate, starting a family, or have decades of past experience to share, the NEB continues to be a top career destination.

The NEB has been awarded a top employer designation for 2017 in the following categories:

Top 100 Canadian Companies
Canada's Top Family-Friendly Employers
Alberta's Top Employers
Top Employers for Canadians over 40

Now entering its 16th year, MediCorp's Canada's Top 100

Employers is an annual editorial competition to recognize the nation's best places to work. The project aims to identify the companies and organizations that lead their industries in attracting and retaining employees.

CRUIUS TO ISSUE FIRST QUARTER 2017 FINANCIAL RESULTS ON MAY 11, 2017

Crius Energy Trust (TSX: KWH.UN) ("Crius" or the "Trust"), today announced that it will issue its first quarter 2017 financial results on Thursday May 11, 2017 after markets close. The Trust will hold a conference call to discuss the results on Friday, May 12, 2017 at 8:30 a.m. eastern time.

To access the conference call by telephone, dial 647-427-7450 or 1-888-231-8191. Please connect approximately 15 minutes prior to the beginning of the call to ensure participation. A question and answer session for analysts will follow management's presentation.

Alive audio webcast of the conference call will be available by following this link: Crius Energy Q1 2017 Results, or by visiting www.cnw.ca. Please connect at least 15 minutes prior to the call to ensure adequate time for any software download that may be required to join the webcast. The webcast will be archived at the above web site for 90 days.

A digital rebroadcast will be available to listeners starting at 11:30 a.m. ET on May 12 until May 19, 2017. To access the rebroadcast, please dial 416-849-0833 or 1-855-859-2056 and enter passcode 5277494#.

About Crius Energy Trust

Crius Energy Trust was established to provide investors with a distribution-producing investment through its ownership interest in Crius Energy. With approximately a million residential customer equivalents, the Company is a comprehensive energy solutions partner that provides electricity, natural gas and solar products to residential and commercial customers. Crius connects with energy customers through an innovative family-of-brands strategy and multi-channel marketing approach. This unique combination creates multiple access points to a broad suite of energy products and services that make it easier for consumers to make informed decisions about their energy needs. The Company currently sells energy products in 18 states and the District of Columbia with plans to continue expanding its geographic reach.

TRINA SOLAR LAUNCHES BIFACIAL PERC MODULE "DUOMAX TWIN"

Trina Solar Limited ("Trina Solar" or the "Company"), a global leader in solar photovoltaic modules, solutions, and services, today announced that it launched its high-efficiency bifacial module DUOMAX Twin at Clean Energy Expo China (CEEC Expo) 2017 in Beijing.

The DUOMAX Twin, is an innovative solar module integrating the technology of Trina Solar's high efficiency bifacial PERC cell and Duomax module. Trina Solar is an industry leader in the research and development of PERC cell technology and production, achieving several world records in mono-PERC cell conversion efficiency. Trina Solar's extensive experience in mass producing DUOMAX module has been validated by its customers worldwide, with total shipments of over 1 Gigawatt over the past years.

DUOMAX Twin generates power from both the front and back sides of the solar module and performs well even under weak light conditions. The front side receives direct sunlight while the back side receives reflected and scattered light. Compared with traditional single-sided modules, the DUOMAX Twin can deliver as much as 25% additional generating capacity.

The DUOMAX Twin enables increased energy density and more electricity generation, as a result of which, the output of the projects will be increased with the same development costs as standard modules. By maximizing energy generation, the DUOMAX Twin significantly reduces levelized cost of electricity (LCOE). Since bifacial modules absorb solar radiation from both sides, they allow a variety of tilt and installation options and are ideal for elevated ground, rooftop, desert and snowy area installations or on-water applications. The dual-glass design used in all DUOMAX panels provides extreme durability even in the harshest environments.

"In the past, we were focused on improving our overall product quality and reducing costs with continuous technology development and optimization of materials," said Rongfang Yin, Vice President of Global Sales & Marketing at Trina Solar. "Going forward, Trina Solar will put additional effort into product segmentation, which will allow our customers to choose products uniquely suited to their distinct project environments."

SKYSTONE INTERNATIONAL 2017 Training Schedule

Skystone International offers the following courses:

- Pipeline Integrity Management
- Pipeline and Facility Installation Inspector's Course
- Regulatory & CSA Z662 Pipeline Systems Code Requirements
- Regulatory & ASME B31.3 Process Piping Code Requirements
- NEW** API1169 Pipeline Installation Inspectors Pre-Exam Workshop*

* Limited spaces available for the API workshop.

During these tough economic times we continue to offer our technical training courses at reduced rates to help ensure everyone keeps up to date with their training and remains employable.

See our website www.skystone.ca/training for full course details, schedule and reduced prices.

Sign up early as these prices will not last!
