### JA SOLAR SUPPLIES THE WORLD'S LARGEST FLOATING SOLAR POWER PLANT

JA Solar Holdings Co., Ltd. (JASO) ("JA Solar"), one of the world's largest solar products manufacturers, today announced that it supplied modules for the world's largest floating solar power plant.

The 40 MW floating PV solar system is installed in a former flooded coal mining region in Huainan City, Anhui province, China. The solar project was connected in May 2017, and has the capacity to provide most of the light and air conditioning to a nearby city. The mono double-glass modules used in the project were all manufactured by JA Solar.

JA Solar's modules are ideal for this type of project. The modules have passed long-term reliability and environmental endurance tests. The excellent anti-PID performance and resistance against corrosion guarantee performance despite the humidity inherent in a floating array. Moreover, the 12-year warranty on materials and workmanship and the 30-year linear power warranty for the double-glass modules ensure that customers will enjoy a steady financial return.

Floating PV is an exciting new

emerging market, with the potential for rapid growth. Demand is expanding for floating PV, especially on islands, because the cost of water surface is generally lower than the cost of land. In addition, the evaporative cooling effect of water helps to reduce module temperature, which promotes module efficiency and prevents degradation.

JA Solar Chairman and CEO Mr. Baofang Jin commented: "We are excited by the opportunity to contribute to such a prominent project. JA will continue its efforts to develop, innovative and improve product technology, which will enable us to participate in similar pioneering solar projects."

### RITCHIE BROS. SELLS CA\$72+ MILLION OF EQUIPMENT IN JUNE EDMONTON AUCTION

Ritchie Bros. conducted its third Edmonton auction of the year this week, selling 5,500+ equipment items and trucks for CA\$72+ million (US\$54+ million) over two days (June 13 - 14, 2017).

More than 7,250 people from 50 countries registered to bid in the auction, including 5,350+ people who registered to bid online. Approximately 66 percent of the

equipment (CA\$47+ million or US\$35+ million) was sold to online bidders. Canadian buyers purchased 89 percent of the equipment, with bidders from Alberta (59%), British Columbia (13%), and Saskatchewan (8%) being the biggest Canadian buyers. International buyers from such countries as Belgium, New Zealand, and the United Arab Emirates purchased 11 percent.

"We are beginning to see slight signs of improvement in the Alberta market as contractors get back to work," said Ryan Eacrett, Regional Sales Manager, Ritchie Bros. "Typically our June sales are a little smaller in size as spring and summer work picks up, but this week we saw strong participation from around the globe online and from local bidders onsite resulting in solid pricing, particularly for construction assets. This week we also sold some great lakefront real estate in Buffalo Lake, AB that achieved strong pricing—it's usually a good sign for the economy when people are willing to spend money on recreational property."

Equipment in the auction was sold for 950+ owners. The selection included 200+ compactors, 80+ excavators, 50+ dozers, 50+ skid steers, 55+ dump trucks, 45+ loaders, 20+ cranes, 25+ agricultural tractors, 185+ truck tractors, 580+ trailers and much

more. All items were sold without minimum bids or reserve prices.

Specific equipment highlights:

Two 2012 Caterpillar 740BEJ ejector 6x6 articulated dump trucks sold for a combined CA\$592,500

A 2012 John Deere 870G LC VG hydraulic excavator sold for CA\$325,000

A 2003 Caterpillar 627G motor scraper sold for CA\$320,000

A 2007 Caterpillar D7R XR Series II crawler tractor sold for CA\$315,000

A 2010 Temisko LB-T3W-54 100-ton tridem double-drop steerable lowboy sold for CA\$305,000

A 2005 Caterpillar 815F compactor sold for CA\$300,000

A 2012 Kenworth T800 T/A tri-drive w/ Manitex 4596T boom truck sold for CA\$295,000

A 2012 Western Star 4900SA tri-drive sleeper hydro vac truck sold for CA\$225,000

Auction quick facts: Edmonton, AB (June 2017)

Gross auction proceeds - CA\$72+ million (US\$54+ million)

Amount sold to online bidders - CA\$47+ million (US\$35+ million)

Total registered bidders

**EAGLE ENERGY INC. ANNOUNCES INDEPENDENT ADVISORY FIRM RECOMMENDATION SUPPORTING A VOTE ON EAGLE'S YELLOW PROXY AND ADDITIONAL COST REDUCTION INITIATIVES**

Eagle Energy Inc. ("Eagle") announces Institutional Shareholder Services Inc. ("ISS") recommendations for voting and additional cost reduction initiatives.

ISS Recommends Yellow Proxy  
 ISS, a leading independent advisor to institutional investors on corporate governance and proxy voting analysis, has recommended that shareholders vote using only Eagle's YELLOW proxy for the majority of Eagle's current directors and DO NOT VOTE the dissidents' blue proxy.

In its report dated June 14, 2017, ISS gave the following reasons why shareholders should

NOT vote for the dissidents' blue proxy (emphasis added):

Given that control of the board is being sought, the dissidents' disclosed business plan does not appear to provide any new detailed long-term strategic initiatives.

While the proposed board reconstitution might trigger a default event under the new loan, no specific alternative financing was proposed by the dissidents.

The timing and urgency of the [dissidents'] proposed liquidation execution for some of the company's assets (in order to repay debt) do not appear to represent an optimal risk-reward combination for the shareholders in the long-run given current depressed valuations and given loss of potential upside associated with such liquidated assets.

[The dissidents state] that the company's assets are of a high quality, while at the same time, the dissidents propose to sell a portion of these assets in what appears to be not ideal market conditions.

Not so long ago, one of the dissidents offered to buy one of the company's assets, which might indicate that even the dissidents themselves think that being on a buying side of energy assets transaction[s] appears to be more attractive at this time.

**Cost Reduction Plan**

Eagle's 2017 capital and operating budget assumed an average WTI price of \$US 55.46 per barrel of oil. In response to significantly weaker current oil prices, Eagle has decided to accelerate cost reductions.

For 2016, Eagle was a top quartile performer in reducing year-over-year general and administrative costs ("G&A") by 16%. In addition, Eagle budgeted and is on track to realize a further 16% year-over-year reduction in G&A in 2017.

Now, with lower oil prices prevailing, Eagle has embarked on additional G&A reduction initiatives aimed at further material reductions. Eagle's plan is comprehensive and includes cost reductions targeting office and overhead, corporate travel, a review of all employee and Board compensation and potential staff reductions. As a first step, within the next 60 days, Eagle intends to implement material reductions in executive compensation, including materially reducing the CEO's compensation. Eagle intends to update our shareholders on the progress of this initiative.

**Clarification of Previous Statements**

Eagle wishes to clarify that Mr.

Wisniewski's quote in the March 13, 2017 press release, which stated "Eagle doubling production and reserves within the next 24 to 36 months", was not referring to the execution of Eagle's internal five year strategic growth plan; rather, it was referring to potential additional capital that Eagle might obtain from a financial partner the size of White Oak Global Advisors, LLC (Eagle's lender) to assist with future acquisitions. There are no guarantees that (i) Eagle will find suitable acquisitions, (ii) White Oak Global Advisors, LLC will provide additional financing for such acquisitions, or (iii) additional financing will be economically feasible to Eagle.

Whether or not Eagle finds and finances suitable acquisitions does not prevent Eagle from executing its five year strategic growth plan, which includes the development of our North Texas asset. Eagle

believes its plan will more than double production and reserves, and see Eagle at less than one times debt to cash flow within five years<sup>1</sup>, while drilling less than one third of its existing inventory.

Support Eagle's Current Board to Ensure Eagle's Future Success

Eagle's directors possess the expertise required for Eagle to execute its plan.

Messrs. Fitzpatrick, Gibson and Steckley each have over 35 years' experience in the oil and gas industry. Mr. Clark has over 27 years' experience. Each has solid energy sector experience in both Canada and the United States.

Mr. Fitzpatrick and Mr. Steckley, both engineers, have served as a public company CEO, president or COO for over 20 years. Mr. Gibson, a chartered accountant, has served as a public company CFO for over 18 years. Mr. Clark has served as

Annual General Meeting - Vote the YELLOW Proxy or Voting Instruction Form

Eagle's Annual General Meeting of shareholders is scheduled for 10:00 a.m. (Calgary time) on Tuesday June 27, 2017 at the Metropolitan Centre at 333 - 4th Avenue SW, Calgary, Alberta.

Eagle's Board unanimously recommends that Eagle Shareholders vote only the YELLOW Proxy or Voting Instruction Form in favour of the current Board.

Vote for Eagle's Board using only Eagle's YELLOW Proxy or Voting Instruction Form. Discard the dissidents' (blue) proxy or voting instruction form. (Voting on the dissidents' proxy or voting instruction form, even if it is against their nominees, will cancel your previous vote using Eagle's YELLOW Proxy or Voting Instruction Form.)

If you have already voted using the dissidents' proxy or voting instruction form, you can change your vote by simply voting using the YELLOW Proxy or Voting Instruction Form. It is the later-dated proxy or voting instruction form that will be counted.

For more information, Eagle Shareholders are encouraged to review in detail Eagle's letter to Shareholders and the Management

Information Circular on its website at [www.EagleEnergy.com](http://www.EagleEnergy.com) or under Eagle's profile at [www.sedar.com](http://www.sedar.com).

1  
These statements are made using the following assumptions: WTI pricing of \$US 55 to \$US 56 and foreign exchange of \$CA 1.28 / \$US 1.00 for the next five years.

VOTE TODAY. Time is of the essence and Eagle Shareholders are urged to vote online by following the instructions found on the YELLOW Proxy or Voting Instruction Form to ensure votes are received in a timely manner.

Eagle's Board thanks you for your continued support.

QUESTIONS OR REQUESTS FOR ASSISTANCE WITH VOTING MAY BE DIRECTED TO EAGLE'S PROXY SOLICITOR:

### SECURE ENERGY SERVICES ANNOUNCES JULY 2017 DIVIDEND

SECURE Energy Services Inc. ("SECURE") (TSX - SES) is pleased to announce that its Board of Directors has declared a dividend for the month of July 2017 of \$0.02125 per common share ("Common Share") payable on or about July 15, 2017 to shareholders of record on July 1, 2017. This dividend is an eligible dividend for the purpose of the Income Tax Act (Canada). To be an eligible shareholder, a shareholder must be a resident in Canada and must not be a "U.S. person" within the meaning of U.S. federal securities laws.

This press release does not constitute an offer to sell or the solicitation of an offer to buy the securities in the United States, in any province or territory of Canada or in any other jurisdiction. The securities to be offered have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any U.S. state securities laws and may not be offered or sold in the United States absent registration or absent an applicable exemption from the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws.

ABOUT SECURE ENERGY SERVICES INC.

SECURE is a TSX publicly traded energy services company that provides safe and environmentally responsible fluids and solids solutions to the oil and gas industry.

The Corporation operates three divisions: Processing, Recovery and Disposal

Division ("PRD"): The PRD division owns and operates midstream infrastructure that provides processing, storing, shipping and marketing of crude oil, oilfield waste disposal and recycling. More specifically these services are clean oil terminalling and rail transloading, custom treating of crude oil, crude oil marketing, produced and waste water disposal, oilfield waste processing, landfill disposal, and oil purchase/resale service. Secure currently operates a network of facilities throughout Western Canada and in North Dakota, providing these services at its full service terminals ("FST"), landfills, stand-alone water disposal facilities ("SWD") and full service rail facilities ("FSR").

Drilling and Production Services Division ("DPS"): The DPS division provides equipment and product solutions for drilling, completion and production operations for oil and gas producers in Western Canada. The drilling service line comprises the majority of the revenue for the division which includes the design and implementation of drilling fluid systems for producers drilling for oil, bitumen and natural gas. The drilling service line focuses on providing products and systems that are designed for more complex wells, such as medium to deep wells, horizontal wells and horizontal wells drilled into the oil sands. The production services line focuses on providing equipment and chemical solutions that optimize production, provide flow assurance and maintain the integrity of production assets.

Onsite Services Division ("OS"): The operations of the OS division include Environmental services which provide pre-drilling assessment planning, drilling waste management, remediation and reclamation assessment services; Naturally Occurring Radioactive Material ("NORM") management, and waste container services; Integrated Fluid Solutions ("IFS") which include water management, recycling, pumping and storage solutions; and Projects which include pipeline integrity (inspection, excavation, repair, replacement and rehabilitation); demolition and decommissioning, and reclamation and remediation of former wellsites, facilities, commercial and industrial properties, and environmental construction projects (landfills, containment ponds, subsurface containment walls, etc.).

### HELPING INDUSTRY COMMIT TO PUBLIC SAFETY: EMERGENCY RESPONSE ASSISTANCE CANADA (ERAC) CONDUCTS ATLANTIC RAIL EMERGENCY TRAINING EXERCISE

Emergency Response Assistance Canada, with the help of RST, conducted a rail emergency exercise today as part of ongoing responder training in the event of an incident involving railcars or trucks carrying flammable liquids or gas.

ERAC Response Teams, Technical Advisors and Remedial Measures Advisors from across Atlantic Canada participated in this full-scale, hands-on exercise involving one flammable liquid (FL) transfer

and one liquid petroleum gas (LPG) transfer from railcar to railcar, and one LPG transfer from railcar to truck.

"Although they are extremely rare, rail incidents involving flammable liquids and gases can happen at any time and any place. If they do, Emergency Response Assistance Canada is capable of responding with highly-trained and experienced responders," said Spencer Buckland, ERAC President. "Activities like today's controlled transfer exercises provide our responders with critical experience to ensure they are ready to act if an incident occurs."

Emergency Response Assistance Canada also welcomed plan participant members as well as representatives from Transport Canada and local first responders to observe the training.

About Emergency Response Assistance Canada (ERAC):

Emergency Response Assistance Canada (ERAC) is a not-for-profit emergency preparedness and response organization. Experts in designing emergency response assistance plans (ERAPs), ERAC is instrumental in assisting hundreds of oil, gas and transportation organizations. From coast to coast ERAC provides highly trained and skilled responders, equipment and industry best practices for road or rail incidents involving flammable gases and liquids. ERAC is a subsidiary of the Canadian Propane Association (CPA).

About RST  
RST's decades of experience in the safe handling of petroleum products and hazardous materials led to the development of our Emergency Response Services division over 30 years ago. Working side by side with emergency response organizations, government agencies, first responders and customers, RST offers a full array of services that can be deployed quickly and efficiently throughout Atlantic Canada. RST also offers extensive emergency response training to many customers and is recognized for having the most prepared Emergency Response Team in the region.

**TORC OIL & GAS LTD. CONFIRMS MONTHLY DIVIDEND FOR JUNE 2017**

TORC Oil & Gas Ltd. ("TORC" or the "Company") (TSX:TOG) is pleased to confirm that a dividend of \$0.02 per common share will be paid on July 17, 2017 to common shareholders of record on June 30, 2017. The ex-dividend date is June 28, 2017, with payment to be made in cash or common shares at the election of the shareholder. Any common shareholder choosing to receive common shares rather than cash must submit his or her share dividend authorization form no later than 4:30 p.m. (Calgary time) on the fourth business day immediately prior to the record date for the declared dividend payment, being June 26, 2017. This dividend has been designated as an "eligible dividend" for Canadian income tax purposes.

Share Dividend Program

TORC's Share Dividend Program enables common shareholders to elect to receive dividends in common shares at the weighted average trading price for the five days immediately prior to the payment date. Participation in the Share Dividend Program is optional and all fees associated with the Share Dividend Program will be paid by TORC.

For further information regarding the Share Dividend Program, please contact Computershare Investor Services at 1-800-564-6253 (toll free in Canada and the United States) or 514-982-7555 (international direct dial).

They distort information to draw attention away from their flawed plan to take over Eagle. This is not the type of leadership Eagle shareholders should accept.

Contrary to what the dissidents imply in their June 15 press release, Institutional Shareholder

Services Inc. ("ISS") does not support the dissidents.

ISS agrees with Eagle—the dissidents' plan provides no new detailed long-term strategic initiatives.

In its report, ISS stated, "Shareholders are advised to use

the management [yellow] proxy card due to the risk that casting votes on the dissident card could result in dissidents' nominees receiving control of the board, which potential outcome does not appear to represent a favourable risk-benefit balance from the company's long-term perspective." (emphasis added)

Eagle's incumbent Board enjoys strong support from Eagle's shareholders, contrary to what the dissidents may want shareholders to believe. Eagle's current board is better suited to lead the company forward and merits your continued support.
