### ALIMENTATION COUCHE-TARD INC. ANNOUNCES PROPOSED PRIVATE OFFERINGS OF SENIOR UNSECURED NOTES

Alimentation Couche-Tard Inc. ("Couche-Tard") (TSX: ATD.A ATD.B) announced today that it intends, subject to market and other conditions, to offer one or more series of senior unsecured notes (the "U.S. Notes") in a private offering that is exempt from the registration requirements of the U.S. Securities Act of 1933, as amended (the "Securities Act"). In a concurrent private offering in Canada, Couche-Tard intends, subject to market and other conditions, to offer one or more separate series of senior unsecured notes (the "Canadian Notes" and, together with the U.S. Notes, the "Notes"). The completion of the U.S. Notes offering is not contingent on the success of the Canadian Notes offering and vice versa.

The Notes will be direct unsecured obligations of Couche-Tard and will rank pari passu with all other outstanding unsecured and unsubordinated indebtedness of Couche-Tard and will be guaranteed on a senior unsecured basis by certain of Couche-Tard's wholly-owned subsidiaries who

are guarantors under Couche-Tard's senior credit facilities.

Couche-Tard expects to use the net proceeds from the sale of the Notes for repayment of certain amounts outstanding under Couche-Tard's senior credit facilities.

The U.S. Notes will be offered only to qualified institutional buyers in reliance on the exemption from registration set forth in Rule 144A under the Securities Act, and outside the United States to non-U.S. persons in reliance on the exemption from registration set forth in Regulation S under the Securities Act. The U.S. Notes have not been registered under the Securities Act, or the securities laws of any state or other jurisdiction, and may not be offered or sold in the United States without registration or an applicable exemption from the Securities Act and applicable state securities or blue sky laws and foreign securities laws.

The Canadian Notes will be offered in Canada on a private placement basis.

This press release shall not constitute an offer to sell, or the solicitation of an offer to buy, any securities, nor shall there be any sales of the Notes in any jurisdiction in which such offer, solicitation or sale would be unlawful.

About Alimentation Couche-Tard Inc.

Couche-Tard is the leader in the Canadian convenience store industry.

In the United States, it is the largest independent convenience store operator in terms of the number of company-operated stores (corporate stores). In Europe, Couche-Tard is a leader in convenience store and road transportation fuel retail in the Scandinavian countries (Norway, Sweden and Denmark), in the Baltic countries (Estonia, Latvia and Lithuania), and in Ireland and also has an important presence in Poland.

As of June 30, 2017, Couche-Tard's network comprised 9,424 convenience stores throughout North America, including 8,077 stores with road transportation fuel dispensing. Its North American network consists of 18 business units, including 14 in the United States covering 42 states and 4 in Canada covering all 10 provinces. Approximately 95,000 people are employed throughout its network and at its service offices in North America.

In Europe, Couche-Tard operates a broad retail network across Scandinavia, Ireland, Poland, the Baltics and Russia through ten business units. As of June 30, 2017, Couche-Tard's network comprised 2,754 stores, the majority of which offer road transportation fuel and convenience products while the others are unmanned automated fuel stations which only offer road transportation fuel. Couche-Tard also offers other products, including

stationary energy, marine fuel, aviation fuel and chemicals. Including employees at its branded franchise stores, approximately 25,000 people work in its retail network, terminals and service offices across Europe.

Through CrossAmerica Partners LP, Couche-Tard supplies road transportation fuel under various brands to more than 1,100 locations in the United States.

In addition, under licensing agreements, more than 1,700 stores are operated under the Circle K banner in 13 other countries and territories (China, Costa Rica, Egypt, Guam, Honduras, Hong Kong, Indonesia, Macau, Malaysia, Mexico, the Philippines, the United Arab Emirates and Vietnam), which brings the worldwide total network to more than 15,000 stores.

### **WESTERN ENERGY SERVICES CORP. 2017 SECOND QUARTER FINANCIAL AND OPERATING RESULTS CONFERENCE CALL AND WEBCAST**

Western Energy Services Corp. ("Western") (TSX: WRG) announces that it intends to release its 2017 second quarter financial and operating results after market close on Wednesday, July 26, 2017 and has scheduled a conference call and webcast to begin promptly at 10:00 a.m. MDT (12:00 p.m. EDT) on Thursday, July 27, 2017.

The conference call dial-in number is 1-888-231-8191

A live webcast of the conference call will be accessible on Western's website at [www.wesc.ca](http://www.wesc.ca) by selecting "Investors", then "Webcasts". Shortly after the live webcast, an archived version will be available for approximately 14 days.

An archived recording of the conference call will also be available approximately two hours after the completion of the call until August 8, 2017 by dialing 1-855-859-2056, passcode 54606825.

Western is an oilfield service company which provides contract drilling services in Canada through its division Horizon Drilling and in the United States through

its wholly-owned subsidiary Stoneham Drilling Corporation. In Canada, Western also provides well servicing through its division Eagle Well Servicing and provides oilfield rental services through its division Aero Rental Services.

### **TRANSALTA APPOINTS THE HONOURABLE RONA AMBROSE TO ITS BOARD OF DIRECTORS**

TransAlta Corporation ("TransAlta" or the "Company") (TSX: TA; NYSE: TAC) is pleased to announce that its Board of Directors has appointed the Honourable Rona Ambrose to its Board of Directors effective July 13, 2017.

"On behalf of our Board, it is my pleasure to welcome Rona," said Ambassador Gordon Giffin, Chair of the Board. "We believe that Rona's extensive public policy experience and demonstrated ability to bring people of divergent views together for a common purpose will strengthen our Board. Her experience, along with her Alberta roots, will also help further our strategy of becoming Canada's leading clean power company through good governance, operational excellence, and growth."

The Honourable Rona Ambrose was the former Leader of Canada's Official Opposition in the House of Commons and former leader of the Conservative Party of Canada. She also acted as Minister of the Crown across nine government departments, including serving as Vice Chair of the Treasury Board and Chair of the cabinet committee for public safety, justice and aboriginal issues.

In addition to serving as an independent director, the Honourable Rona Ambrose is a Global Fellow at the Wilson Centre Canada Institute in Washington D.C. focusing on key Canada-U.S. bilateral trade and competitiveness issues.

TransAlta looks forward to the contributions of the Honourable Rona Ambrose to its Board of Directors.

About TransAlta Corporation:

TransAlta is a power generation and wholesale marketing company focused on creating long-term shareholder value. TransAlta maintains a low-to-moderate risk profile by operating a highly contracted portfolio of assets in Canada, the United States and Australia. TransAlta's focus is to efficiently operate wind, hydro, solar, natural gas and coal facilities in order to provide customers with a

reliable, low-cost source of power. For over 100 years, TransAlta has been a responsible operator and a proud contributor to the communities in which it works and lives. TransAlta has been recognized on CDP's Canadian Climate Disclosure Leadership Index (CDLI), which includes Canada's top 20 leading companies reporting on climate change, and has been selected by Corporate Knights as one of Canada's Top 50 Best Corporate Citizens and is recognized globally for its leadership on sustainability and corporate responsibility standards by FTSE4Good.

For more information about TransAlta, visit our web site at [transalta.com](http://transalta.com), or follow us on Twitter @TransAlta.

### **ALTERRA POWER NEGOTIATING FINAL SETTLEMENT OF ICELANDIC BOND**

Alterra Power Corp. (TSX: AXY) announces that its subsidiary, Magma Energy Sweden, is in the process of negotiating a final settlement of its US\$71.3 million non-recourse bond (valued as at June 30), which matures on July 16, 2017. The collateral under the bond will be delivered to the bondholder (formerly the municipality of Reykjanæsbaer), a consortium of Icelandic pension funds (Fagjáfrestasjóðurinn ORK) and consists solely of shares of Alterra's Icelandic subsidiary, HS Orka hf comprising a 12.7% ownership stake. Once delivered, Alterra's ownership stake in HS

Orka hf will reduce accordingly to 53.9%, and Alterra, through Magma Energy Sweden, will continue managing HS Orka hf and consolidating its financial results.

About Alterra Power Corp.

Alterra Power Corp. is a global renewable energy company that manages eight power plants totaling 825 MW of hydro, wind, geothermal and solar generation capacity in Canada, the USA and Iceland. Following this transaction, Alterra will own a 363 MW share of this capacity, generating over 1,500 GWh of clean power annually. Alterra also has an extensive portfolio of development projects and a skilled team of developers, builders and operators to support its growth plans.

Alterra trades on the Toronto Stock Exchange under the symbol AXY and OTC in the United States as MGMXF.

**CO2 SOLUTIONS' DIRECTOR OF THE VALORISATION CARBONE QUÉBEC PROJECT TO PRESENT AT CARBON MANAGEMENT TECHNOLOGY CONFERENCE.**

CO2 Solutions Inc. (TSXV: CST), the leader in the field of enzyme-enabled carbon capture technology, today announced that the Corporation's Director of the Valorisation Carbone Québec (VCQ) Project, Dr. Louis Fradette, will be presenting to the Carbon Management Technology Conference (CMTC 2017). The presentation will highlight the benefits of utilizing the CO2 Solutions carbon capture technology combined to the most advanced technologies for converting CO2 for its beneficial reuse. The energy sector is one of many industrial sectors to potentially benefit from the outcomes of Valorisation Carbone Québec,

a project unique in the world. CMTC 2017 will focus on carbon capture, utilization, and storage (CCUS) technologies that provide options for lowering greenhouse gas emissions while maintaining fuel diversity for sustainable growth. CMTC 2017 provides an unbiased platform to present information on carbon management solutions for continued energy and economic growth.

CMTC 2017 builds on CMTC 2015 that attracted over 200 speakers and attendees from 16 countries, of which 54% were from industry, 34% from academia/research organization and 12% from numerous governments. CMTC 2017 will build on this success by sharing insights and lessons learned on the requirements for carbon capture, utilization and storage (CCUS) deployment as well as the proposed technologies for a modern energy infrastructure that maintains fuel diversity for sustainable growth, while addressing climate change. This international conference is unique in its focus on current industry large-scale CCUS options being demonstrated while looking forward into the next generation of innovation by leading researchers worldwide.

Further information on the event can be found <http://fscarbonmanagement.org/cmtc/2017>. Dr. Fradette's presentation will take place on Tuesday, July 18, 2017 at 3:30 p.m., central daylight saving time. The presentation will be posted on CO2 Solutions' website.

About CO2 Solutions Inc.

CO2 Solutions is an innovator in the field of enzyme-enabled carbon capture and has been actively working to develop and commercialize the technology for stationary sources of carbon pollution. CO2 Solutions' technology lowers the cost barrier to Carbon Capture, Sequestration and Utilization (CCSU), positioning it as a viable CO2 mitigation tool, as well as enabling industry to derive profitable new products from these emissions. CO2 Solutions has built an extensive patent portfolio covering the use of carbonic anhydrase, or analogues thereof, for the efficient post-combustion capture of carbon dioxide with low energy aqueous solvents. Further information can be found at [www.co2solutions.com](http://www.co2solutions.com)

**JA SOLAR SUPPLIES 100% OF MODULES FOR THE FIRST UTILITY-SCALE SOLAR PLANT IN MALAYSIA**

JA Solar Holdings Co., Ltd. (JASO) ("JA Solar"), one of the world's largest solar products manufacturers, today announced that it won the contract to supply 50 MW (AC) of modules for the country's first utility-scale solar project in Malaysia.

Located in Sabah, the 50MW utility-scale inaugural project marks a significant milestone in solar energy development in Malaysia, which has gained lots of attentions from Ministry of Energy, Energy Commission, Sabah Electricity and senior government officials. YB Datuk Seri Panglima Dr Maximus Johnny Ongkili, the Minister of Energy, Green Technology and Water (Malaysia),

visited the project site on 28th June, 2017. He spoke highly of the solar module quality and the construction process, expressing his hope that the solar plant can be connected soon and contributes to the green energy industry in Malaysia.

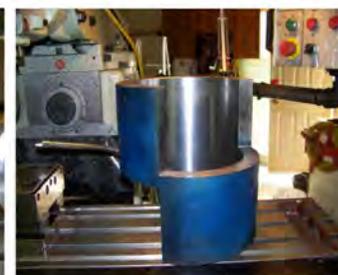

SPIC Energy Malaysia Sdn. Bhd., a subsidiary of State Power Investment Corporation ("SPIC"), provided EPC service for the project. SPIC is the largest solar power investor and operator in China, as well as globally. JA Solar provides 50 MW (AC) of high-performance Percium mono modules with lower light induced degradation rate, better anti-PID performance and higher power output, which can operate in a hot and humid environment. With all modules provided by JA Solar, the project is currently under construction and expected to be completed by the end of 2017. In addition, the solar project is expected to create more than 200 jobs and resolve the power shortage problem in Sabah.

Mr. Cao Bo, JA Solar's Vice President commented, "We are excited to partner with one of our largest customers, SPIC, again in an overseas market. We believe this win demonstrates our value proposition and technical innovation with high-performance solar modules. We have invested USD163 million in our Penang, Malaysia manufacturing operation to produce poly and mono cells with the annual capacity of 1000MW. From the China-Malaysia relationship standpoint, investing in manufacturing facilities and sharing our technical expertise in Malaysia, a rapidly growing

### ECOPETROL APPROVES CREATION OF SUBSIDIARY IN MEXICO..

Ecopetrol S.A. (BVC: ECOPETROL; NYSE: EC) reports that in line with its strategy of diversification and strengthening of its exploration and production portfolio, and as a result of the allocation of exploration and extraction contracts in Mexico, its Board of Directors has approved the establishment of a subsidiary in that country.

The new subsidiary's shareholders are the subsidiaries i) Ecopetrol Global Energy SLU, a company incorporated in Spain, with a 99% equity interest, and ii) Ecopetrol America Inc., incorporated in the United States, with a 1% equity interest. These two companies are owned by Ecopetrol S.A.

This new subsidiary, the sole corporate purpose of which will be the exploration and extraction of hydrocarbons, will be responsible for the subscription and execution of the petroleum contracts in which Ecopetrol participates in Mexico, starting with the recently awarded Blocks 6 and 8 of Round 2.1.

This decision is part of Ecopetrol's strategy to advancing toward a new growth stage.

This release contains statements that may be considered forward looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. All forward-looking statements, whether made in this release or in future filings or press releases or orally, address matters that involve risks and uncertainties, including in respect of the Company's prospects for growth and its ongoing access to capital to fund the Company's business plan, among others. Consequently, changes in the following factors, among others, could cause actual results to differ materially from those included in the forward-looking statements: market prices of oil & gas, our exploration and production activities, market conditions, applicable regulations, the exchange rate, the Company's competitiveness and the performance of Colombia's economy and industry, to mention a few. We do not intend, and do not

assume any obligation to update these forward-looking statements

### ECO CANADA'S INTERNSHIP PROGRAM AWARDED \$8.9M TO HELP GROW GREEN JOBS

ECO Canada's Internship Program received substantial funding that provides up to 50% in salary for environmental jobs in Natural Resource Sectors. The program will result in the fulfillment or creation of 650 environmentally focused career opportunities for new graduates and corporations.

"Canadian youth have the talent and drive to succeed in the labour market", says the Honourable Jim Carr, Minister of Natural Resources Canada. "To help them make the transition from school to work and get a strong start in their careers, the Government of Canada continues to invest in the Youth Employment Strategy, a government-wide initiative to help support Canada's newest workers".

Funded through Natural Resources Canada's Green Jobs - Science and Technology Internship Program (STIP), eligible employers who work in science, technology, engineering, or math (STEM) can receive up to \$15,000 to onboard new environmental positions.

"This program really helps new grads break into that first job and makes them a compelling candidate because their position can be subsidized. At the same time, employers can grow the capacity of their teams where they may not be able to otherwise" explained Jennifer Neuman, Senior Program Manager.

Eligible interns must intend to lead an environmental career related to STEM, be 30 years of age or younger and be eligible to work in Canada. Eligible employers in the natural resources industry must offer a fulltime, permanent position, provide an environment-related position in STEM, and plan to hire a new employee.

"Our 15+ years of experience in managing internship funding programs has resulted in many success stories from the over 5,000 jobs that have been created to date. We are pleased to be able to continue building green jobs with the support of NRCan" said Angie Dzwonkiewicz, Marketing Director.

This program is available to participants across Canada. For more information or to get started with an application, visit <http://www.eco.ca/employers/internship-program>.

ca/employers/internship-program.

About ECO Canada

For over 20 years, ECO Canada has studied the environmental labour market and examined ways to improve access for new graduates and individuals entering mid-career. The data it collects provides insights on green career trends, from top jobs to skills gaps to high-growth sectors.
