SECURE ENERGY SERVICES ANNOUNCES AUGUST 2017 DIVIDEND AND TIMING OF SECOND QUARTER RESULTS

SECURE Energy Services Inc. ("SECURE") (TSX - SES) is pleased to announce that its Board of Directors has declared a dividend for the month of August 2017 of \$0.02125 per common share ("Common Share") payable on or about August 15, 2017 to shareholders of record on August 1, 2017. This dividend is an eligible dividend for the purpose of the Income Tax Act (Canada). To be an eligible shareholder, a shareholder must be resident in Canada and must not be a "U.S. person" within the meaning of U.S. federal securities laws.

Secure also announced today that it expects to release its 2017 second quarter financial and operating results after market close on Tuesday, August 1, 2017. Interim Financial Statements and Management's Discussion and Analysis will be posted to Secure's website and SEDAR following the release.

This press release does not

constitute an offer to sell or the solicitation of an offer to buy the securities in the United States, in any province or territory of Canada or in any other jurisdiction. The securities to be offered have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any U.S. state securities laws and may not be offered or sold in the United States absent registration or absent an applicable exemption from the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws.

ABOUT SECURE ENERGY SERVICES INC.

SECURE is a TSX publicly traded energy services company that provides safe and environmentally responsible fluids and solids solutions to the oil and gas industry.

The Corporation operates three divisions:

Processing, Recovery and Disposal Division ("PRD"): The PRD division owns and operates midstream infrastructure that provides processing, storing, shipping and marketing of crude oil, oilfield

waste disposal and recycling. More specifically these services are clean oil terminalling and rail transloading, custom treating of crude oil, crude oil marketing, produced and waste water disposal, oilfield waste processing, landfill disposal, and oil purchase/resale service. Secure currently operates a network of facilities throughout Western Canada and in North Dakota, providing these services at its full service terminals ("FST"), landfills, stand-alone water disposal facilities ("SWD") and full service rail facilities ("FSR").

Drilling and Production Services Division ("DPS"): The DPS division provides equipment and product solutions for drilling, completion and production operations for oil and gas producers in Western Canada. The drilling service line comprises the majority of the revenue for the division which includes the design and implementation of drilling fluid systems for producers drilling for oil, bitumen and natural gas. The drilling service line focuses on providing products and systems that are designed for more complex wells, such as medium to deep wells, horizontal wells and horizontal wells drilled into the oil sands. The

production services line focuses on providing equipment and chemical solutions that optimize production, provide flow assurance and maintain the integrity of production assets.

Onsite Services Division ("OS"): The operations of the OS division include Environmental services which provide pre-drilling assessment planning, drilling waste management, remediation and reclamation assessment services, Naturally Occurring Radioactive Material ("NORM") management, and waste container services; Integrated Fluid Solutions ("IFS") which include water management, recycling, pumping and storage solutions; and Projects which include pipeline integrity (inspection, excavation, repair, replacement and rehabilitation); demolition and decommissioning, and reclamation and remediation of former well sites, facilities, commercial and industrial properties, and environmental construction projects (landfills, containment ponds, subsurface containment walls, etc.).

SURGE ENERGY INC. CONFIRMS JULY 2017 DIVIDEND

Surge Energy Inc. ("Surge" or the "Company") (TSX: SGY) confirms that a cash dividend to be paid on August 15, 2017 in respect of July 2017 production, for the shareholders of record on July 31, 2017 will be \$0.007917 per share.

The dividend is an eligible dividend for the purposes of the Income Tax Act (Canada).

Surge Energy Inc. is an oil-weighted production and development company with high quality, large oil in place, crude oil reservoirs. Management is focused on delivering to its shareholders solid per share organic growth, sustainable monthly dividends, and further growth through accretive acquisitions of additional elite oil reservoirs.

Neither the TSX nor its Regulation Services Provider (as that term is defined in the policies of the TSX) accepts responsibility for the adequacy or accuracy of this release.

SOURCE Surge Energy Inc

FURTHER UPDATE REGARDING THE ACQUISITION OF NON- OPERATED ONSHORE PRODUCTION ASSETS IN BRAZIL AND CAD\$4MM PRIVATE PLACEMENT OF 80MM SHARES AT CAD\$0.05..

Petro-Victory Energy (TSX-V:

VRV), ("Petro-Victory" or the "Company"), is pleased to announce it has received notification from the TSX Venture that trading in its shares will resume today, July 17, at the opening of the exchange.

Trading was halted on July 13, 2017 as a routine halt in accordance with the TSX Venture Policies. The purpose of the halt was to allow the TSX Venture to review certain materials in connection with Petro-Victory's announcement on July 12, 2017 of the proposed acquisition of a portfolio of non-operated production interests in Brazil from Empresa de Engenharia de Petróleo Ltda. ("ENGEPEL") for an aggregate of US\$1.9 million (the "Acquisition") to complement the current royalty interests in Paraguay.

Readers are directed to the press release dated July 12, 2017 for further information in connection with the Acquisition.

This press release does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of these securities, in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws and may not be offered or sold within the United States unless an exemption from such registration is available.

Cautionary Note

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Advisory Regarding Forward-Looking Statements

In the interest of providing Petro-Victory's shareholders and potential investors with information regarding Petro-Victory, including management's assessment of Petro-Victory's future plans and operations, certain statements in this press release are "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward-looking information" within the meaning of applicable Canadian securities legislation (collectively, "forward-looking statements"). In some cases, forward-looking statements can be identified by terminology such as "anticipate", "believe", "continue", "could", "estimate", "expect", "forecast", "intend", "may", "objective", "ongoing", "outlook", "potential", "project", "plan", "should", "target", "would", "will" or similar words suggesting future outcomes, events or performance. The forward-looking statements contained in this press release speak only as of the date thereof and are expressly qualified by this cautionary statement.

Specifically, this press release contains forward-looking statements relating to but not limited to: our business strategies, oil and gas production, plans and objectives, and drilling, testing and exploration expectations. These forward-looking statements are based on certain key assumptions regarding, among other things: the completion of the offering; our ability to add production and reserves through our exploration activities; the receipt, in a timely manner, of regulatory and other required approvals for our operating activities; the availability and cost of labor and other industry services; the continuance of existing and, in certain circumstances, proposed tax and royalty regimes; and current industry conditions, laws and regulations continuing in effect (or, where changes are proposed, such changes being adopted as anticipated). Readers are cautioned that such assumptions, although considered reasonable by Petro-Victory at the time of preparation, may prove to be incorrect.

Actual results achieved will vary from the information provided herein as a result of numerous known and unknown risks and uncertainties and other factors.

The above summary of assumptions and risks related to forward-looking statements in this press release has been provided in order to provide shareholders and potential investors with a more complete perspective on Petro-Victory's current and future operations and such information may not be appropriate for other purposes. There is no representation by Petro-Victory that actual results achieved will be the same in whole or in part as those referenced in the forward-looking statements and Petro-Victory does not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by applicable securities law.

Not for distribution to U.S. NewsWire Services or for dissemination in the United States. Any failure to comply with this restriction may constitute a violation of U.S. securities laws.

CONA RESOURCES LTD. ANNOUNCES JULY 2017 DIVIDEND

Cona Resources Ltd. ("Cona" or the "Company") (TSX: CONA) announced today a cash dividend of \$0.02 per common share for July 2017. The dividend will be payable on August 15, 2017 to shareholders of record on July 31, 2017. This dividend has been designated as an eligible dividend under the Income Tax Act (Canada).

Cona Resources Ltd.

Cona is a Canadian crude oil production and development company focused on maximizing oil recovery from its large-scale oil resource base. The corporation's operations, infrastructure and concentrated land position are focused in southwest Saskatchewan. Cona's common shares trade on the Toronto Stock Exchange under the symbol CONA.

A d v i s o r i e s

This news release contains forward-looking information within the meaning of applicable Canadian securities laws, including with respect to the amount and payment of future dividends by Cona. The reader is cautioned that forward-looking information is based on certain assumptions, and is subject to known and unknown risks and uncertainties (both general and specific) that contribute to the possibility that the future events or circumstances contemplated by the

Is pleased to announce the acquisition of
e-tegrity Solutions Inc.

This acquisition combines e-tegrity Solutions's integrity management expertise, substantial client base of oil & gas producers, and knowledge with Skystone's integrity engineering and field services.

It strengthens our ability to provide a full vertically integrated integrity service to our clients including; Pressure Equipment Integrity Management, Pipeline Integrity Management, Materials Engineering, Corrosion Consulting, Technical Training, Cathodic Protection, and NDE Services.

The combination of these two strong brands allows us to become a much stronger alternative to existing integrity management competitors in Western Canada.

For more information contact Marty Trimble at 403-968-0262, mtrimble@skystone.ca or see our website www.skystone.ca

forward-looking information will not occur.

In particular, the payment of dividends is dependent on the satisfaction of the applicable liquidity and solvency tests imposed

by the Business Corporations Act (Alberta). Readers should also refer to the risk factors set forth in the Company's annual information form dated March 10, 2017 available at www.sedar.com. There can be no assurance that the plans, intentions or expectations upon which forward-looking information is based will be realized.

Actual results may differ, and the difference may be material and adverse to the Company and its shareholders.

BALLARD TO SUPPLY 5 FUEL CELL ENGINES TO SUNLINE TRANSIT AGENCY FOR CLEAN ENERGY BUSES IN CA

Ballard Power Systems (NASDAQ: BLDP; TSX: BLDP) today announced that it has received an order from SunLine Transit Agency ("SunLine") for five (5) FCveloCity® fuel cell engines to power clean energy buses in Palm Desert, California. The 150 kilowatt engines are expected to be shipped in 2017.

Ballard is partnering with EIDorado National, a key North American bus OEM, and BAE Systems, a system integrator and major supplier of electric drive systems, to deliver buses to SunLine Transit Agency.

"We are very pleased with the continued progress in deployment of zero-emission mass transit alternatives in the U.S. market," said Rob Campbell, Ballard's Chief Commercial Officer. "Our partnership with SunLine, EIDorado National and BAE Systems puts Ballard at the forefront of North American fuel cell bus deployments and further adds momentum to the growing global trend toward clean energy buses and other heavy duty transit solutions."

SunLine Transit Agency received funding from the Federal Transit Administration (FTA) to purchase and deploy 5 hydrogen electric fuel cell buses. This will double SunLine's current fleet of fuel cell buses and allow it to offer expanded transit service in the Coachella Valley area of Southern California.

The buses will use the previously deployed American Fuel Cell Bus (AFCB) configuration, first introduced

with SunLine Transit Agency in 2011. The AFCB configuration utilizes Ballard's heavy duty fuel cell engine to provide primary power, in combination with BAE Systems' electric propulsion and power management systems deployed in an ENC 40-foot (12-meter) Axess model transit bus. There are currently 13 AFCBs deployed with various transit agencies across North America, with another 10 on order including these 5 for SunLine.

Funding was provided by the FTA under the Low or No Emission (LoNo) Vehicle Program. The LoNo Vehicle Program is designed to support deployment of clean, energy-efficient buses in transit fleets. The program provides funding to transit agencies for capital acquisitions and leases of zero-emission and low-emission transit buses, including acquisition, construction and leasing of required infrastructure such as refueling and maintenance facilities.

About Ballard Power Systems

Ballard Power Systems (NASDAQ: BLDP; TSX: BLDP) provides clean energy products that reduce customer costs and risks, and helps customers solve difficult technical and business challenges in their fuel cell programs. To learn more about Ballard, please visit www.ballard.com.

This release contains forward-looking statements concerning market demand for our products. These forward-looking statements reflect Ballard's current expectations as contemplated under section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Any such forward-looking statements are based on Ballard's assumptions relating to its financial forecasts and expectations regarding its product development efforts, manufacturing capacity, and market demand.

These statements involve risks and uncertainties that may cause Ballard's actual results to be materially different,

including general economic and regulatory changes, detrimental reliance on third parties, successfully achieving our business plans and achieving and sustaining profitability. For a detailed discussion of

these and other risk factors that could affect Ballard's future performance, please refer to Ballard's most recent Annual Information Form. Readers should not place undue reliance on Ballard's forward-looking statements and Ballard assumes no obligation to update or release any revisions to these forward

looking statements, other than as required under applicable legislation.

This press release does not constitute an offer to sell or the solicitation of an offer to buy securities. The Ballard Common Shares have not been registered under the United States Securities Act of 1933, as amended, or the securities laws of any other jurisdiction and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

ALGONQUIN POWER & UTILITIES CORP. ANNOUNCES DATES FOR 2017 SECOND QUARTER FINANCIAL RESULTS RELEASE AND CONFERENCE CALL

OAKVILLE, ON, July 18, 2017 /CNW/ - Algonquin Power & Utilities Corp. ("APUC") (TSX: AQN, NYSE: AQN) today announced plans to release 2017 second quarter financial results on Thursday, August 10, 2017 after market close. APUC will hold an earnings conference call at 9:00 a.m. eastern time on Friday, August 11, 2017, hosted by Chief Executive Officer, Ian Robertson and Chief Financial Officer, David Bronicheski.

Conference call details are as follows:

Date: Friday, August 11, 2017

Start Time: 9:00 a.m. eastern time

Phone Number: Toll free within North America: 1-800-319-4610 or Local: 416-915-3239

Conference Access:

please ask to join the Algonquin Power & Utilities Corp. conference call

Presentation Access: <http://services.choruscall.ca/links/algonquinpower20170811.html>

For those unable to attend the live call, a digital recording will be available for replay two hours after the call by dialing 1-855-669-9658 or 1-604-674-8052, access code 1555, from August 11, 2017 until August 25, 2017. The webcast presentation will remain accessible via the URL above or APUC's website at www.AlgonquinPowerandUtilities.com.

About Algonquin Power & Utilities Corp.

APUC is a North American diversified generation, transmission and distribution utility with \$10

billion of total assets. Liberty Utilities provides rate regulated natural gas, water, and electricity generation, transmission, and distribution utility services to over 750,000 customers in the United States. APUC is committed to being a North American leader in the generation of clean energy through its portfolio of long term contracted wind, solar and hydroelectric generating facilities representing more than 1,300 MW of installed capacity. APUC delivers continuing growth through an expanding pipeline of renewable energy development projects, organic growth within its rate regulated generation, distribution and transmission businesses, and the pursuit of accretive acquisitions. Common shares and preferred shares are traded on the Toronto Stock Exchange under the symbols AQN, AQN.PR.A, and AQN.PR.D. APUC's common shares are also listed on the New York Stock Exchange under the symbol AQN.

Visit APUC at www.AlgonquinPowerandUtilities.com and follow us on Twitter @AQN_Utilities.

NATCORE TECHNOLOGY SELECTED TO DEVELOP SOLAR PROJECTS IN U.S.

Natcore Technology Inc. (TSX-V: NXT; OTCQB: NTCXF) has signed a Memorandum of Understanding with PSECC Solar Farms Ltd., a climate change mitigation company and developer of solar farms, under which PSECC would engage Natcore to develop solar projects within the United States.

Natcore would provide PSECC with access to Natcore's technology, including some level of exclusivity once that technology becomes

commercially available. PSECC would facilitate the U.S. projects by, among other things, providing financial assistance that would include 80% of the funding of the projects at a low interest rate (currently at 4.5%). Such financial assistance would be provided by a large European bank (and possibly others) with which PSECC has a strong relationship. The remaining 20% funding is likely to be obtained from other USA sources or European Institutions.

Initially the companies' joint efforts will be concentrated in U.S. states that have feed-in tariffs that are mandated by law or regulation, or that have strong precedents: California, Florida, Hawaii, Maine, Oregon, Rhode Island, Vermont and Washington.

A feed-in tariff is an economic policy created to promote active investment in and production of renewable energy sources. Feed-in tariffs typically make use of long-term agreements and pricing tied to costs of production for renewable energy producers.

Natcore scientists have recently achieved an efficiency of 20.7% in their latest demonstration solar cell. That efficiency, which is a relative 20% higher than most commercially available solar cells, was achieved on the Natcore Foil Cell™, an all-back-contact cell that combines a revolutionary laser process with a novel metallization strategy, thus enabling high-efficiency cell architectures at low cost. Importantly, it also eliminates the need for silver, one of the highest-cost components of a conventional solar cell.

This project arose from Natcore's Best-of-Breed consulting service, under which the company provides unbiased business and technical advice to potential new solar cell and solar panel manufacturers and to established solar manufacturers wishing to upgrade their facilities.

Since Natcore is not itself a manufacturer, it is able to buy components or employ vendors without bias. Thus, Natcore will have the freedom to provide optimum products with appropriate warranties and efficiencies.

This is the fourth project to be assigned to Natcore as a result of its Best-of-Breed program. The company is already working on projects in Belize, Australia and Vietnam.

"We've been looking for American partners to help us plant our technology here on our own soil," says Natcore President and CEO Chuck Provini.

"We have knocked on many doors

in this county, but it appears that no one is home in the U. S. when it comes to solar, regardless of the administration. We find it ironic that we've had to go to Europe to make it happen."

"PSECC has solar and energy projects around the world, but we feel that the United States is an underserved and untapped market," says Alan Brewer, CEO and Director of PSECC (www.pseccsolarfarms.com). "We feel strongly that Natcore is the right company to help us expand that market. Clean energy is important, not just to countries but to the planet."

Headquartered in Chichester, West Sussex, England, PSECC has expertise in site identification, design, finance and engineering; procurement and construction (EPC) services related to solar farms and projects; and in providing solutions for the development of solar farms, solar PV energy policy, energy strategy and integrated waste management business solutions.

The company is currently developing solar farms in Konza, Kenya; Mombasa, Kenya; and Simbrofo, Ghana.

About Natcore Technology
Natcore Technology is focused on using its proprietary nanotechnology discoveries to enable a variety of compelling applications in the solar industry. Specifically, the company is advancing applications in laser processing, black silicon and quantum-dot solar cells to significantly lower

the costs and improve the power output of solar cells. With 65 patents (30 granted and 35 pending), Natcore is on the leading edge of solar research. www.NatcoreSolar.com

Statements herein other than purely historical factual information, including statements relating to revenues or profits, or Natcore's future plans and objectives, or expected sales, cash flows, and capital expenditures constitute forward-looking statements. Forward-looking statements are based on numerous assumptions and are subject to all of the risks and uncertainties inherent in Natcore's business, including risks inherent in the technology history. There can be no assurance that such forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue

reliance on such statements. Except in accordance with applicable securities laws, Natcore expressly disclaims any obligation to update any forward-looking statements or forward-looking statements that are incorporated by reference herein.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

TORC OIL & GAS LTD. CONFIRMS MONTHLY DIVIDEND FOR JULY 2017

TORC Oil & Gas Ltd. ("TORC" or the "Company") (TSX:TOG) is pleased to confirm that a dividend of \$0.02 per common share will be paid on August 15, 2017 to common shareholders of record on July 31, 2017. The ex-dividend date is July 27, 2017, with payment to be made in cash or common shares at the election of the shareholder. Any common shareholder choosing to receive common shares rather than cash must submit his or her share dividend authorization form no later than 4:30 p.m. (Calgary time) on the fourth business day immediately prior to the record date for the declared dividend payment, being July 25, 2017. This dividend has been designated as an "eligible dividend" for Canadian income tax purposes.

Share Dividend Program
TORC's Share Dividend Program enables common shareholders to elect to receive dividends in common shares at the weighted average trading price for the five days immediately prior to the payment date. Participation in the Share Dividend Program is optional and all fees associated with the Share Dividend Program will be paid by TORC.

For further information regarding the Share Dividend Program, please contact Computershare Investor Services at 1-800-564-6253 (toll free in Canada and the United States) or 514-982-7555 (international direct dial).
