### ECOPETROL BOARD OF DIRECTORS APPOINTS NEW PRESIDENT

Ecopetrol S.A. (BVC: ECOPETROL; NYSE: EC) informs that its Board of Directors, in a meeting held on August 16, 2017, accepted the resignation of Juan Carlos Echeverry Garzón, current president of the Company, submitted for family reasons, and appointed as his replacement Engineer Felipe Bayón Pardo, current Executive Vice President. The transition in the presidency will be made on September 15, 2017.

The appointment of Bayon is based on the process completed by a subcommittee of the Board of Directors, advised by an international firm specialized in the selection of high-level executives, after a rigorous analysis of the proposed candidates.

The Board of Directors made a special recognition to Juan Carlos Echeverry for the achievements during its management of Ecopetrol, in which he successfully met the challenges of the international oil market and maximized the value of the company for the benefit of its shareholders and all Colombians.

Echeverry formed a talented management group that surpassed the efficiencies and savings goal, and laid the foundations for the Company's growth in the long term. Among its achievements is the

discovery of a new hydrocarbon province in the Colombian Caribbean, strengthening ethical and compliance management in the company, and a new strategy in key areas such as finance, projects, supply, human talent, environment and relationship with communities, among others.

The new president of Ecopetrol, Felipe Bayón Pardo, is a mechanical engineer from the University of Los Andes with more than 25 years of experience in the oil and gas industry, both in Colombia and abroad.

For more than 20 years he worked at BPPLC, where he held senior positions such as Senior Vice President BP Americas and Director of the Deepwater International Response Group. Since February 2016, he has led Ecopetrol's operations as Executive Vice President.

Dr. Bayón received the mandate from the Board of Directors to continue the transformation process and focus on profitable growth.

This release contains statements that may be considered forward looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. All forward-looking statements, whether made in this release or in future filings or press releases or orally, address matters that involve risks and uncertainties, including in respect of the Company's prospects for growth and its ongoing access to capital

to fund the Company's business plan, among others. Consequently, changes in the following factors, among others, could cause actual results to differ materially from those included in the forward-looking statements: market prices of oil & gas, our exploration and production activities, market conditions, applicable regulations, the exchange rate, the Company's competitiveness and the performance of Colombia's economy and industry, to mention a few. We do not intend, and do not assume any obligation to update these forward-looking statements.

### HYDUKE ENERGY SERVICES INC. ANNOUNCES BOARD OF DIRECTORS AND MANAGEMENT CHANGES

Hyduke Energy Services Inc. ("Hyduke" or the "Company") announces effective immediately James M. Hill has resigned as a director and Interim Chief Financial Officer of the Company due to personal circumstances. We at Hyduke thank Mr. Hill for his contributions and efforts. Hyduke has begun the process of seeking a qualified director to replace Mr. Hill.

Jimmie Yeung, CPA CGA, has agreed to join Hyduke as Chief Financial Officer as soon as he completes his current commitments in the next few weeks. Mr. Yeung has held numerous

positions of increasing responsibility in financial management in the past 20 years, most recently the Director of Finance for the Canadian division of a global supplier of products and services to the oil and gas industry. Most of his experience has been in the oilfield services sector for companies providing a wide variety of products and services. Mr. Yeung lives in Edmonton.

Patrick F. Ross, President and Chief Executive Officer, will assume responsibilities for the Chief Financial Officer position until Mr. Yeung joins the Company.

Kelvin Lynch has resigned as Vice-President Operations for Hyduke effective August 31, 2017 due to personal circumstances. Mr. Lynch played a key role in the restructuring of the Company in the past three years including improving margins, processes and safety. We wish Mr. Lynch the best as he returns to his native Ontario.

Boyd Mahon has agreed to join Hyduke in the position of Vice-President Operations shortly. Mr. Mahon has 18 years of experience as construction and operations manager for a major, privately-owned, western Canadian provider of construction and fabrication services. This includes the manufacture of infrastructure and components for oil sands, pipelines, and oil and gas processing facilities. Mr. Mahon lives in Edmonton.

### **BELLATRIX REGAINS COMPLIANCE WITH NYSE MINIMUM PRICE LISTING STANDARD**

Bellatrix Exploration Ltd. ("Bellatrix" or the "Company") (TSX, NYSE: BXE) announces that it has received notification from the New York Stock Exchange ("NYSE") that the Company has regained compliance with the NYSE's continued listing standard regarding the price of its common shares because the average closing price of a Bellatrix common share has exceeded US\$1.00 for 30 consecutive trading days following implementation of the 5-for-1 share consolidation on July 6, 2017.

Bellatrix Exploration Ltd. is a publicly traded Western Canadian based growth oriented oil and gas company engaged in the exploration for, and the acquisition, development and production of oil and natural gas reserves, with highly concentrated operations in west central Alberta, principally focused on profitable development of the Spirit River liquids rich natural gas play.

### **PEMBINA PIPELINE CORPORATION ANNOUNCES CLOSING OF \$600 MILLION PUBLIC NOTE OFFERING**

Pembina Pipeline Corporation ("Pembina" or the "Company") (TSX: PPL, NYSE: PBA) is pleased to announce that it has closed its previously announced offering of \$600 million of senior unsecured medium-term notes (the "Offering"). The Offering was conducted in two tranches consisting of \$350 million principal amount through the re-opening of the Company's 2.99% medium-term notes, series 8, due January 22, 2024 (the "Series 8 Notes") and \$250 million principal amount through the re-opening of the Company's 4.74% medium-term notes, series 9, due January 21, 2047 (the "Series 9 Notes").

The Offering was announced on August 14, 2017. The Series 8 Notes and Series 9 Notes were offered

through a syndicate of dealers under Pembina's short-form base shelf prospectus dated July 27, 2017, as supplemented by a related pricing supplement dated August 14, 2017.

The net proceeds will be used to repay short-term indebtedness of the Company under its credit facilities, as well as to fund Pembina's capital program and for other general corporate purposes.

This news release does not constitute an offer to sell or the solicitation of an offer to buy the notes in any jurisdiction. The notes offered have not been approved or disapproved by any regulatory authority. The notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and may not be offered or sold within the United States unless an exemption from the registration requirements of the U.S. Securities Act is available.

About Pembina  
Calgary-based Pembina Pipeline Corporation is a leading transportation and midstream service provider that has been serving North America's energy industry for over 60 years. Pembina owns and operates an integrated system of pipelines that transport various products derived from natural gas and hydrocarbon liquids produced primarily in western Canada. The Company also owns and operates gas gathering and processing facilities and an oil and natural gas liquids infrastructure and logistics business. Pembina's integrated assets and commercial operations along the entire hydrocarbon value chain allow it to offer a full spectrum of midstream and marketing services to the energy sector. Pembina is committed to working with its community and aboriginal neighbours, while providing value for investors in a safe, environmentally responsible manner. This balanced approach to operating ensures the trust Pembina builds among all of its stakeholders is sustainable over the long-term. For more information, visit [www.pembina.com](http://www.pembina.com).

#### **Forward-Looking Information and Statements**

This news release contains certain forward-looking information and statements (collectively, "forward-looking statements") that are based on Pembina's current expectations, estimates, projections and assumptions in light of its experience and its perception of historical trends. In this news release, such forward-looking information and statements can be identified by terminology such as "expects", "will",

and similar expressions suggesting future events or future performance.

In particular, this news release contains forward-looking information and statements relating to the offering, including the anticipated use of the net proceeds of the offering. These forward-looking statements are based on certain assumptions that Pembina has made in respect thereof as at the date of this news release, including: that market and industry conditions will be as predicted; that favourable growth parameters continue to exist in respect of current and future growth projects (including the ability to finance such projects on favourable terms); that Pembina's businesses will continue to achieve sustainable financial results; and that the conditions to the closing of the offering can be met on the anticipated timelines.

These forward-looking statements are not guarantees of future performance and are subject to a number of known and unknown risks and uncertainties, including, but not limited to: unforeseen and significant changes in market and/or industry conditions; the strength and operations of the oil and natural gas production industry and related commodity prices; non-performance of agreements in accordance with their terms; fluctuations in operating results; the ability of Pembina to raise sufficient capital to complete future projects and satisfy future commitments; construction delays; labour and material shortages; and certain other risks detailed from time to time in Pembina's public disclosure documents including, among other things, those detailed

under the heading "Risk Factors" in Pembina's management's discussion and analysis and annual information form for the year ended December 31, 2016, which can be found under Pembina's profile on SEDAR at [www.sedar.com](http://www.sedar.com) and with the U.S. Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov) and available on Pembina's website at [www.pembina.com](http://www.pembina.com). In addition, the closing of the offering may not be completed, or may be delayed, if the conditions to the closing of the offering are not satisfied on the anticipated timeline or at all. Accordingly, there is a risk that the offering will not be completed within the anticipated time, on the terms currently proposed, or at all. The intended use of the net proceeds of the offering by Pembina may change if the board of directors of Pembina determines that it would be in the best interests of Pembina to deploy the proceeds for some other purpose and there can be no guarantee as to how or when such proceeds may be used.

Readers are cautioned that events or circumstances could cause results to differ materially from those predicted, forecasted or projected. Such forward-looking statements are expressly qualified by the above statements. Pembina does not undertake any obligation to publicly update or revise any forward-looking statements contained herein, except as required by applicable laws.

All dollar values are in Canadian dollars.

Is pleased to announce the acquisition of

### **e-tegrity Solutions Inc.**

This acquisition combines e-tegrity Solutions's integrity management expertise, substantial client base of oil & gas producers, and knowledge with Skystone's integrity engineering and field services.

It strengthens our ability to provide a full vertically integrated integrity service to our clients including; Pressure Equipment Integrity Management, Pipeline Integrity Management, Materials Engineering, Corrosion Consulting, Technical Training, Cathodic Protection, and NDE Services.

The combination of these two strong brands allows us to become a much stronger alternative to existing integrity management competitors in Western Canada.

For more information contact Marty Trimble at 403-968-0262, [mtrimble@skystone.ca](mailto:mtrimble@skystone.ca) or see our website [www.skystone.ca](http://www.skystone.ca)

**XOS LAUNCHES NEW  
ASTM D4294 ANALYZER  
FOR TESTING  
CRITICAL ELEMENTS  
IN PETROLEUM  
REFINERIES AND  
INDEPENDENT LABS**

XOS has announced the worldwide release of Petra MAX™, a new D4294 analyzer with combined analysis of 13 elements from P to Zn. Petra MAX delivers high-precision sulfur analysis in addition to rapid monitoring of critical elements like Ca, Fe, K, Ni, and V at sub-ppm levels. It is the ideal solution for refineries and independent laboratories.

To learn more about Petra MAX, visit [xos.com/PetraMAX](http://xos.com/PetraMAX) and view our application note and product brochure.

Kyle Kuwitzky, Product Manager for XOS, believes this will be a game-changer for refineries and independent labs. "Existing D4294 instruments do not offer simultaneous measurement of sulfur and trace analysis of other critical elements. Petra MAX delivers repeatable sub-ppm measurements of metals like nickel, vanadium, and iron combined with sulfur measurements as low as 5.7ppm."

Test methods for measuring sulfur content, like ASTM D4294 and ISO 8754, have become critical for assessing the value of crude oil. The blending of crude oils from different sources has become more commonplace within the industry to meet specifications for the classification of sweet crude oil. The introduction of new crudes brings new challenges, like higher concentrations of metals known to rapidly deactivate process catalysts in the catalytic cracker and hydrotreaters, and cause pump and exchanger fouling, and off-specification coke.

Petra MAX is powered by HDXRF, utilizing XOS patented doubly curved crystal optics coupled with a high-performance silicon drift detector and an intense monochromatic excitation beam. This industry-leading technology reduces background noise and increases signal-to-noise output, enabling low detection limits and high precision without the need for consumable helium gas, a vacuum pump, or extensive sample preparation.

About XOS

XOS is a leading manufacturer of application-specific X-ray analyzers, offering elemental analysis solutions that improve public safety and customer efficiency in industries like petroleum, consumer products,

and environmental compliance. For petroleum applications, XOS offers portable, lab, and process analyzers with unrivaled precision at the push of a button. XOS also offers analyzers for the detection of toxic elements in consumer products and in the environment. XOS's advanced optics and OEM sub-systems can increase precision, speed, and spatial resolution, while decreasing the size, complexity, and cost of the instrument. XOS: better analysis counts <[www.xos.com](http://www.xos.com)>

**PARAMOUNT  
RESOURCES  
LTD. COMPLETES  
ACQUISITION OF  
APACHE CANADA LTD.  
AND PROVIDES UPDATE  
ON TRILOGY MERGER  
TIMING**

Paramount Resources Ltd. (TSX: POU) ("Paramount" or the "Company") is pleased to announce that it has completed its previously announced acquisition of Apache Canada Ltd., which has been re-named Paramount Resources (ACL) Ltd.

The special meetings of shareholders of Paramount and Trilogy Energy Corp. ("Trilogy") to consider and vote on the proposed merger of Paramount and Trilogy have been scheduled for September 8, 2017. The joint information circular and forms of proxy for the meetings will be mailed to shareholders and publicly filed this week. Shareholders are encouraged to return their proxies as soon as possible in advance of the proxy cut-off. If shareholder and court approvals are obtained and the other conditions to the merger are satisfied, the merger is expected to be completed on or about September 12, 2017.

Paramount is an independent, publicly traded, Canadian energy company that explores and develops unconventional and conventional petroleum and natural gas prospects, including long-term unconventional exploration and pre-development projects, and holds a portfolio of investments in other entities. The Company's principal properties are primarily located in Alberta and British Columbia. Paramount's Class A common shares are listed

on the Toronto Stock Exchange under the symbol "POU".

Canadian Owned and Operated  
A Division of 101237464 Sankatbrian Ltd.

and increasing profitability, and is an important part of Canada's national approach to address climate change.

Today at the Energy and Mines Ministers' Conference, Canada's Minister of Natural Resources, the Honourable Jim Carr, launched the new ENERGY STAR for Industry program. The program is an expansion of the existing ENERGY STAR Canada program that will see Canadian industry contribute more to the transition to a low-carbon and clean-growth economy.

Canada's industrial sector contributes approximately 37 percent of the country's GHG emissions. ENERGY STAR for Industry will improve energy efficiency in Canada's industrial sector by helping facilities track, analyze and reduce their energy consumption. These actions will help industrial facilities reduce their operating costs and improve competitiveness.

ENERGY STAR for Industry certification provides energy performance indicators (EPI) that can be used to benchmark industrial facilities' energy performance. The Integrated Steel Mill EPI is the first to be available in Canada. Additional EPIs are being developed to expand ENERGY STAR for Industry certification to include commercial baking, automotive assembly and cement and fertilizer manufacturing in Canada.

**Quotes**

"ENERGY STAR for Industry will help Canadian industrial facilities reduce energy use and save money, helping

Canada meet its commitment to reduce greenhouse gas emissions and combat climate change."

Jim Carr  
Canada's Minister of Natural Resources

"New Brunswick industries see the value in improving their energy efficiency to help them compete and thrive in the marketplace. When industries reduce their consumption, they cut costs allowing them to be more competitive, make new investments and create jobs right here in New Brunswick."

Rick Doucet  
New Brunswick's Minister of Energy and Resource Development

"Energy efficiency is key to a clean and prosperous Canadian economy. The CSPA is proud of the work of its members in helping to bring ENERGY STAR for Industry to Canada."

Joseph Galimberti  
President of the Canadian Steel Producers Association (CSPA)

Quick Facts

In December 2016, Canada adopted the Pan-Canadian Framework on Clean Growth and Climate Change (PCF), a commitment to take action on industrial energy efficiency, including working together to accelerate the adoption of energy management systems. The PCF highlights that improving industrial energy efficiency is needed to help set the path for long-term clean growth and the transition to a low-carbon economy.

The ENERGY STAR Canada program is a voluntary partnership among the Government of Canada and more than 1,500 organizations working to use our natural resources more wisely through greater energy efficiency.

ENERGY STAR for Industry builds on the Canadian Industry Program for Energy Conservation, an internationally recognized government-industry partnership aimed at improving energy efficiency in Canada.

Certification recognizes individual facilities whose energy performance is determined to be among the best within their industries in Canada. Industrial facilities that score in the top quartile "best-in-class" can apply for certification and recognition. Natural Resources Canada publicly recognizes the most energy-efficient Canadian facilities with ENERGY STAR for Industry certification.

Information on how to use the Integrated Steel Mills EPI is available at ENERGY STAR for Industry. Associated Links

Mr. Whitmarsh has 33 years of energy industry experience. Mr. Whitmarsh previously held the position of President with Trinidad Drilling from 2002 to 2008, and Chief Executive Officer and a member of the Trinidad board of directors until March 2017. Mr. Whitmarsh has many years of practical hands-on experience, starting as a rig floor hand in the early 1980's and evolving through various operational positions, advancing into supervisory roles, manufacturing, well servicing and later into prominent senior management positions. Mr. Whitmarsh played a vital role in a wide scope of endeavors including drilling depth ranges to 30,000 feet globally, including 3,000 foot wells in Southern Alberta. He has been responsible for the overall operation of 150 rigs and is proud to have been part of a team earning a Total Recordable Incident Rate (TRIR) of under one. Recently, Mr. Whitmarsh served as an intermediary board member in the Total Energy and Savanna Energy Services merger, then acted as President of Savanna Energy Services until July 2017. Mr. Whitmarsh has served in various capacities with the Canadian Association of Oilwell Drilling Contractors (CAODC) during 2005 to 2017, in Calgary, Alberta.

About MATRRIX

The Corporation commenced operations in 2011. MATRRIX has grown its concurrent capacity of horizontal and directional drilling systems ("Systems") organically with the acquisition and assembly of 25 Systems as at the date of this press release. MATRRIX has developed and implemented a proprietary system called D2ROXTM (pronounced DEE-ROCKS) to aid the Corporation and its oil and gas clients to drive predictable, repeatable, cost effective, safe field operations at the rig site. Since inception, the Corporation has maintained a balance sheet with zero debt and a strong working capital position.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
