PULSE OIL CORP. COMPLETES TRANSACTIONS TO INCREASE ITS INTEREST AT BIGORAY AND OPERATIONS UNDERWAY TO GROW PRODUCTION AND CASHFLOW

Pulse Oil Corp. ("Pulse" or the "Company") (TSX-V: PUL) announces that Pulse has completed its two transactions previously reported on October 16, 2017 to consolidate its interests in the Bigoray area of Alberta, resulting in 100% control of Pulse's Bigoray operations.

The transactions secure Pulse's interest in two strategic Nisku oil pools, providing substantial upside to Pulse through the addition of new reserves, restarting of existing behind-pipe production and providing Pulse the opportunity to implement a low-risk Enhanced Oil Recovery ("EOR") project to increase recovery factors of the petroleum initially in place ("PIIP") from approximately 35% currently and potentially up to 80%.

Importantly to Pulse, years of production on these Bigoray discoveries and approximately 50 others in the near vicinity have provided Pulse's team significant

production history and confirmation that these enhanced oil recovery techniques work and have resulted in an average recovery factor of 80%.

Operational Outlook: Restarting of Existing Behind Pipe Production to Commence Production Growth Plans at Bigoray Pulse's immediate plans to grow production from well reactivations at Bigoray are in place and can be funded through current working capital and cash flow. Prior to Pulse's agreement to consolidate the Bigoray assets, Pulse and its joint venture partner invested approximately \$450,000 in work to prepare pipelines and facilities in anticipation of restarting production. With full control of the planning and pace of operations, Pulse will start to bring production from the Bigoray area back online in November.

Drew Cadenhead, Pulse President and COO commented, "Operationally speaking, we are excited to take control of these neglected assets at Bigoray. Our first step will be to immediately bring back on production that was shut in 3 years ago during historical low commodity prices. As a proven low-cost operator with no debt, Pulse's team is ready to implement the same operational acumen we demonstrated in our

previous successes - this is what we do, capture strategic assets, unlock the bigger picture upside and increase value for shareholders. By bringing on immediate cash flow from the restarting of existing behind pipe production, we can begin to fund our EOR plan in the Nisku D and E pools, a low-risk operation with tremendous upside for a company our size."

About Pulse Oil Corp.

Pulse is a Canadian company incorporated under the Business Corporations Act (Alberta) and has plans to become a leading oil and gas company. Pulse will focus on acquiring affordable, small to medium sized proven oil and gas assets with significant upside. The Company plans to achieve further growth through low-risk, technically diligent drilling, infrastructure ownership and reserve growth utilizing proven enhanced oil recovery techniques and implementation of technology.

Neither the TSX Venture Exchange, Inc. nor its Regulation Service Provider (as that term is defined under the policies of the TSX Venture Exchange) has in any way passed upon the merits of the Proposed Acquisition and associated transactions and has neither approved nor disapproved of the contents of this press release.

READER ADVISORY

This press release contains forward-looking information. The words "believe," "expect," "anticipate," "plan," "intend," "foresee," "should," "would," "could" or other similar expressions are intended to identify forward-looking statements, which are generally not historical in nature. These forward-looking statements are based on management's current expectations and beliefs concerning future developments and their potential effect on the Company based on information currently available to management. While management believes that these forward-looking statements are reasonable as and when made, there can be no assurance that future developments affecting us will be those anticipated. Statements in this press release containing forward-looking information include but are not limited to the completion of the Bigoray enhanced oil recovery project and the re-starting of shut-in production at Bigoray. Forward-looking information involves known and unknown risks, uncertainties, assumptions and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking information. Important factors that could cause actual results to differ

TORONTO HYDRO IS WARNING CUSTOMERS ABOUT MULTIPLE SCAMS

Toronto Hydro wants customers to be aware of three separate scams that are currently operating. They involve text messages, emails and threatening phone calls.

The most recent scam uses fake bills — along with a personalized letter — that are emailed to customers. The scammers demand payment of \$400 for a Smart Meter Deposit, which is not a legitimate charge, or power will be disconnected. Customers

have also been contacted by phone. To help guard against becoming a victim of this fraud, customers should know their account number, and if they're suspicious of a bill, refer to a past invoice for comparison.

Some of our business and residential customers are also receiving emails and/or text messages that appear to be from Toronto Hydro, asking them to accept an electronic transfer (credit or refund) by clicking on a link. We never send these types of emails/text messages. We advise customers not to click on any links, as fraudsters are attempting to access personal information.

We also want to remind customers of an ongoing phone scam that's been operating for several years. Customers have received calls from phone numbers that look legitimate, with fraudsters claiming to be "Toronto Hydro Billing and Collection Process." These fraudsters demand payment, usually in the form of a pre-paid card. We never ask for this type of payment and never threaten to disconnect power immediately.

To protect themselves, our customers should follow these tips:

Don't provide any personal or account information if contacted by phone, email or text

Don't make any type of payment until you can confirm you're dealing with Toronto Hydro

Contact Toronto Hydro's Customer Care department at 416-542-8000 if you suspect any type of fraud Report suspicious activity to the Canadian Anti-Fraud Centre at 1-888-495-8501 and quote file number 844396.

Q U O T E S

"We're concerned about these new scams, and we want our customers to be protected from this type of fraudulent behaviour. We encourage them to call us directly to report any suspicious activity."

Tori Gass, Spokesperson, Hydro Toronto

ABOUT TORONTO HYDRO

Toronto Hydro owns and operates an electricity distribution system, which delivers electricity to approximately 765,000 customers located in the city of Toronto. It is the largest municipal electricity distribution company in Canada and distributes approximately 19% of the electricity consumed in the province of Ontario.

WIND ENERGY PART OF VIABLE ALTERNATIVE TO SITE C, BCUC CONCLUDES

Falling costs and scalability increase value of wind energy in this time of uncertain demand forecasts

OTTAWA, Nov. 1, 2017 /CNW Telbec/ - Jean-François Nolet, vice-president of policy and communications at the Canadian Wind Energy Association (CanWEA) issued this statement following the release of the Final Report to the Government of British Columbia by the British Columbia Utilities Commission in follow-up to its Inquiry Respecting Site C.

"The Canadian Wind Energy Association (CanWEA) is pleased to see that the British Columbia Utilities Commission's (BCUC) Final Report to the BC Government released today has concluded that a mix of alternative energy sources, like wind energy, can provide similar benefits to ratepayers as the Site C hydroelectric project with an equal or lower Unit Energy Cost. This is consistent with many analyses that have concluded that wind energy is the most-cost-competitive form of non-greenhouse gas emitting electricity generation available today in Canada. Indeed, more wind

energy has been built in Canada over the last decade than any other form of electricity generation.

CanWEA notes that the BCUC also concluded that future growth in electricity demand will likely be lower than had been assumed in the Site C project forecasts. Given the uncertainty inherent in projecting future electricity demand growth, wind energy is well positioned to reduce risk for ratepayers because its scalability and relatively short construction timelines provide much more flexibility to system planners seeking to match future supply to future demand.

CanWEA was also pleased to see the BCUC recognize that the variability of wind energy generation does not pose a major challenge to B.C. in alternative scenarios to Site C because B.C. already has substantial dispatchable hydro capacity in place."

B a c k g r o u n d

CanWEA and the Clean Energy Association of B.C (CEABC) teamed up in 2017 to provide input into the B.C Utility Commission's Site C Inquiry. They commissioned Power Advisory LLC to conduct an independent analysis of the costs and benefits of wind, solar, small hydro and battery storage in the province, as well as the relative benefits and risks of these technologies compared to Site C. The analysis found wind energy is a cost-competitive alternative to large hydro development, and has additional benefits that lead to better outcomes for ratepayers.

Power Advisory LLC president John Dalton summarized the report's findings in a technical presentation made to the inquiry on behalf of CanWEA and CEABC.

In October 2017, North American Wind Power published a story by CanWEA about the wind energy industry in B.C. - Wind vs. Hydro: British Columbia Has A Vital Decision To Make.

A survey of B.C. First Nations found that 98 per cent want to see more opportunity to develop clean

EXITO AND GOOD LIFE NETWORKS ANNOUNCES APPOINTMENT OF NEW OFFICER IN CONNECTION WITH THE PLAN OF ARRANGEMENT

Exito Energy II Inc. ("Exito") (TSX Venture: EXI.P) and Good Life Networks Inc. ("GLN") announce the resignation of Konstantin Lichtenwald as the Chief Financial Officer ("CFO") of GLN and the appointment of Andrew Osis as the CFO of GLN, effective October 5, 2017. Subject to the approval of the TSX Venture Exchange ("TSX-V"), Mr. Osis will be appointed as the CFO and Corporate Secretary of the issuer resulting from the proposed business combination between Exito and GLN (the "Resulting Issuer") instead of Mr. Lichtenwald. Mr. Lichtenwald will not be appointed to the board of directors of the Resulting Issuer.

Mr. Osis' 20-year career has included working as an investment banker and as a Chief Executive Officer, Chief Financial Officer, Director and advisor with large and small companies. Mr. Osis has been involved in financial and business transactions with an aggregate value of more than \$25 billion. Mr. Osis formerly held positions as Vice President, Global Banking with RBC Dominion Securities Inc., one of Canada's largest investment banking firms, as well as positions with Peters & Company and Newcrest Capital where he focused on mergers, acquisitions, and

equity and debt financings. Since leaving the investment banking industry, Mr. Osis has served on numerous boards of directors, and as Chief Executive Officer and Chief Financial Officer of public and private organizations, covering technology, media and entertainment, energy and oilfield services, manufacturing, life sciences, and other sectors.

Cautionary Statement

Completion of the Proposed Transaction is subject to a number of conditions, including but not limited to final TSX-V acceptance. There can be no assurance that the Proposed Transaction will be completed as proposed or at all.

Investors are cautioned that, except as disclosed in the management information circular prepared in connection with the transaction, any information released or received with respect to the Proposed Transaction may not be accurate or complete and should not be relied upon. Trading in the securities of a capital pool company should be considered highly speculative.

Neither the TSX-V nor its Regulation Service Provider (as that term is defined in the policies of the TSX-V) accepts responsibility for the adequacy or accuracy of this release.

Forward Looking Statements

Forward-looking statements relate to future events or future performance and reflect the expectations or beliefs regarding future events of management of Exito and GLN (the "Companies"). This information and these statements, referred to herein as "forward-looking statements", are not historical facts, are made as of the date of this news release and include without limitation, statements regarding discussions of future plans, estimates and forecasts and statements as to management's expectations and intentions with respect to, among other things, the completion of the Proposed Transaction. These forward-looking statements involve numerous risks and uncertainties and actual results might differ materially from results suggested in any forward-looking statements. Important factors that may cause actual results to vary include without limitation; risks associated with any delays or difficulties encountered in respect of the proposed business combination transaction between Exito and GLN; the timing and receipt of certain approvals; delays in the receipt of requisite approvals and changes in general economic conditions or conditions in the financial markets. In making the forward-looking statements in this news release, the Companies have applied several

material assumptions, including without limitation: the receipt of necessary consents and approvals and satisfaction of all conditions precedent for the completion of the transaction, continuance and consolidation in a timely manner. Neither Exito nor GLN assumes any obligation to update the forward-looking statements, or to update the reasons why actual results could differ from those reflected in the forward looking-statements, unless and until required by applicable securities laws. Additional information identifying risks and uncertainties is contained in Exito's filings with the Canadian securities regulators, which filings are available at www.sedar.com.

MOSAIC CAPITAL COMPLETES ACQUISITION OF WINDSOR-BASED CIRCLE 5 TOOL & MOLD

Mosaic Capital Corporation ("Mosaic") (TSX-V Symbols: M and M.DB) is pleased to announce the acquisition of a 75% interest in the business being carried on by Circle 5 Tool & Mold Inc. ("Circle 5").

Circle 5 is a supplier of molding solutions to Tier 1 automotive part manufacturers, offering custom, high-precision molds and tools for plastic injection production of highly-visible interior automotive components. Circle 5's broad international

customer base produces interior components for today's leading automotive brands including BMW, Ford, Volkswagen, General Motors, Toyota, Daimler and Tesla. With an established track record of over 30 years, Circle 5 is highly regarded in the industry for its delivery of quality molds and tools based on strong customer responsiveness, innovation and collaboration. Circle 5 operates out of a modern, 50,000-sq. ft. manufacturing facility in Windsor, Ontario. The remaining 25% of Circle 5 is being retained by its President and primary operating shareholder, Saylo Lam (41), a professional mechanical engineer who has been involved with the company for over 18 years.

Mosaic's acquisition cost of \$27 million was funded by cash and will be subject to typical post-closing adjustments. Mosaic financed the transaction with \$7 million from available credit facilities and \$20 million from the issuance of three year, 7% subordinated preferred units within a newly formed limited partnership, which is 100% controlled by Mosaic.

Saylo Lam, President of Circle 5 stated "Mosaic's involvement successfully solved a key ownership succession issue, which results in an orderly transition of Circle 5's two founding shareholders, one of whom is my father. We are excited to move forward with the Mosaic team, as we collectively pursue a number of identified organic and

LABORATORY SERVICES

Skystone's state of the art material testing laboratory has been designed to meet the needs of the oil and gas industry. Our engineers have performed thousands of investigations to determine causes of component failures and to prevent future incidents.

The Skystone laboratory can provide services including:

- Failure analyses (pipelines, pressure vessels, downhole equipment)
- Cut-out evaluations
- Fitness-for service assessments
- Finite elemental analyses (FEA) and design verification
- Sweet to sour conversions
- Material testing and selection

acquisition growth opportunities." Mark Gardhouse, CEO of Mosaic Capital commented "we are delighted to welcome Saylo Lam and his management team at Circle 5 as Mosaic's newest operating partner and we look forward to a long-term relationship. Circle 5 has an established track record of strong financial growth and profitability within a niche market that has an attractive outlook. This acquisition illustrates the diversified growth model we are implementing and offers a new business platform for future growth opportunities."

ABOUT MOSAIC CAPITAL CORPORATION

Mosaic is a Canadian investment company that owns a portfolio of established businesses which span a diverse range of industries and geographies. Mosaic's strategy is to create long-term value for its shareholders through accretive acquisitions, long-term portfolio ownership, sustained cash flows and organic portfolio growth. Mosaic achieves its objectives by maintaining financial discipline, acquiring businesses at attractive valuations, performing extensive acquisition due diligence, utilizing optimal transaction structuring and working closely with subsidiary businesses after acquisition.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

FORWARD-LOOKING INFORMATION :

This news release may contain forward-looking information and statements within the meaning of applicable Canadian securities laws (herein referred to as "forward-looking statements") that involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. All information and statements in this news release which are not statements of historical fact may be forward-looking statements. The words "believe", "expect", "intend", "estimate", "anticipate", "project", "scheduled", and similar expressions, as well as future or conditional verbs such as "will", "should", "would", and "could" often identify forward-looking statements. In particular, forward-looking statements in this news release include, but are not limited to: statements with respect to the terms of the acquisition by Mosaic of a 75% interest in the business carried on by Circle 5 and that Circle 5 has growth potential. Such statements or information are only predictions and reflect the current beliefs of management with respect to future events and are based on information currently available to management. Actual results and events may differ materially from those contemplated by these forward-looking statements due to these statements being subject to

a number of risks and uncertainties. Undue reliance should not be placed on these forward-looking statements as there can be no assurance that the plans, intentions or expectations upon which they are based will occur. By their nature forward-looking statements involve assumptions and known and unknown risks and uncertainties, both general and specific, that contribute to the possibility that the predictions and other forward-looking statements will not occur. Some of the assumptions made by Mosaic, upon which such forward-looking statements are based include, but are not limited to: the business operations of Circle 5 will continue on a basis at least consistent with prior years; there will be reasonable continuity of Circle 5's management team; and future market conditions for Circle 5 will not be materially different than anticipated by Mosaic.

A number of factors could cause actual results to differ materially from those expressed or implied by the forward-looking statements, including, but not limited to: general business and economic conditions in geographic areas where Circle 5 has operations; pricing pressures and other competitive factors; third parties failing to honour their contractual obligations with Circle 5; procurement and pricing issues with suppliers; unforeseen cost overruns on Circle 5's projects; legislative or regulatory developments; the continued availability and cost of qualified labour; the continued strength of the industries within which customers of Circle 5 operate; and the continued ability to secure new business. Should any of the risks or uncertainties facing Mosaic and its subsidiaries materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results, performance, activities or achievements could vary materially from those expressed or implied by any forward-looking statements contained in this news release. Readers are cautioned that the foregoing list of risks is not exhaustive. Additional information on these and other factors that could affect the operations or financial results of Mosaic and its subsidiaries are included in Mosaic's annual information form for the year ended December 31, 2016, a copy of which is available under Mosaic's profile on SEDAR (www.sedar.com).

Although Mosaic believes that the expectations represented by any forward-looking-statements contained herein are reasonable based on the information available to it on the date of this news release, management cannot

assure investors that actual results, performance or achievements will be consistent with these forward-looking statements. Any forward-looking statements herein contained are made as of the date of this news release and Mosaic does not assume any obligation to update or revise them to reflect new information, events or circumstances, except as required by law.

TRANSALTA RENEWABLES DECLARES DIVIDENDS

The Board of Directors of TransAlta Renewables Inc. (TSX: RNW) today declared a monthly dividend of \$0.07833 per common share payable on December 29, 2017, January 31, 2018, February 28, 2018 and March 29, 2018, to shareholders of record at the close of business on December 1, 2017, January 2, 2018, February 1, 2018 and March 1, 2018, respectively.

About TransAlta Renewables Inc.

TransAlta Renewables is among the largest of any publicly traded renewable independent power producers ("IPP") in Canada. Our asset platform and economic interests are diversified in terms of geography, generation and counterparties and consist of interests in 18 wind facilities, 13 hydroelectric facilities, eight natural gas generation facilities (including South Hedland) and one natural gas pipeline, representing an ownership interest of 2,441 MW of net generating capacity, located in the provinces of British Columbia, Alberta, Ontario, Québec, New Brunswick, the State of Wyoming and the State of Western Australia. Our objectives are to (i) provide stable, consistent returns for investors through the ownership of, and investment in, highly contracted renewable and natural gas power generation and other infrastructure assets that provide stable cash flow primarily through long-term contracts with strong counterparties; (ii) pursue and capitalize on strategic growth opportunities in the renewable and natural gas power generation and other infrastructure sectors; (iii) maintain diversity in terms of geography, generation and counterparties; and (iv) pay out 80 to 85 per cent of cash available for distribution to the shareholders of the Company on an annual basis.

Note: All financial figures are in Canadian dollars unless noted otherwise.
